purchase

Florida Tech Students \$25  
Bring a Friend for \$75  
Florida Tech Student ID  
Must Be Present  
During Purchase

The **Society of Automotive Engineers at Florida Tech** participates in Formula SAE Internal Combustion against schools from around the world. We hope this event will help fund an entirely new car for the 2022 year as well as infrastructure including shop tools, machine shop needs, and dyno testing. A new car and stronger infrastructure would allow SAE at Florida Tech the opportunity to be the most successful it has ever been.

Please, join us to celebrate cars, racing, and the beginning of a new chapter for Automotive Engineering at Florida Tech.
